

## How to Attract Ms. Right Trophy Fishing 101

### About the Author

Hi, my name is Brian Goodwin and I have written this book to help men like you find their very own trophy wife. Now, you may be wondering what makes me so smart when it comes to women and the answer is very simple and complex at the same time, sort of like a woman. I have received a Master's degree in Psychology with a Bachelor's in Sociology. I have traveled the world showing men of different races and background how to meet women. I have given several lectures at some of the top schools of higher learning around the world. I have always been interested in the way that a woman's mind works and in particular how the woman's mind and body reacts to the men she meets.

The system that you are about to learn is a tried and true system, but like any other system, it will only work as hard as you do. It is also important that you understand why this is *Trophy Fishing 101*. In all of my experience as a relationship advisor, I have found that men usually share a love of the outdoors, regardless of age or lifestyle. By relating each lesson in the book to one of our favorite outdoor pastimes, fishing, it helps the mind draw a clear connection through the murky waters of dating. So, you will find fishing references throughout the entire book, because making this as easy as possible for you is my job. Together, we will have you reeling in Ms. Right by utilizing the valuable information in my book, *How to Attract Ms. Right: Trophy Fishing 101*. I wish you the best!

### Course Introduction

Everyone has heard the phrase, "There are plenty of fish in the sea" to describe how many people we can choose from when selecting a life partner. The reason these types of sayings stay around for a long time is because they are true. This one is no exception. In fact, there are more than 7 billion "fish in the sea" according to the Census Bureau (CB). So, there really are a lot of people to choose from regardless of whether you long for just a friendship with benefits or a long-term relationship with lifetime commitment. Here's another fact. The CB's population clock indicates that the world welcomes four new citizens every one second. That is an overwhelming statistical advantage for meeting new and interesting people, on a daily basis. It is an almost certainty that every day you should meet someone new. The reason you don't is because of *you*.

Now, before we go any further, it is important for you to realize that this book is for men who want to attract beautiful, successful women and although these tips can be useful for any romantic

relationship it is designed to achieve success in individuals who are heterosexual. So, let's continue with that in mind.

You are in control of *your* life. So let's examine some of the reasons we fail to attract trophy catches. Maybe you aren't going to the right places or you aren't saying the right things. Maybe, your relationships always start out fine, only to crash and die at the worst time. Perhaps, you lack confidence or you have been burned by previous relationships. Maybe you are trying too hard. It can also be possible that you really just don't know yet what you are looking for in your trophy catch. Whatever the reason, *Trophy Fishing 101* can help you find your trophy of a catch. You can find the ideal woman and get the most out of your relationship, but you have to be willing to work the system and you have to be willing to accept and see the changes *you* need to make. You also have to admit fault and take responsibility. Every unsuccessful relationship that *you* have is *your* fault.

Most guys will tell me to shut up at this point and that "No way is this my fault." I have two words for you, "It is." This was the hardest thing for me to swallow when I began my own search into finding a new way to go about companionship (And yes guys, this is what we really want). And accepting blame will probably be the hardest thing for you, too. But, this must happen or the right person for you may be the one you never meet. Owning up to some blame shouldn't stand in the way of me and the person I want to be with. At least that was what I kept telling myself until it finally clicked.

This was a hard process for me. I was just coming out of a very bad two year relationship that really hadn't ended much better than it had begun, when I decided I was fed up. Two more years were wasted that I'll never get back and I was no closer to being happy, no closer to enjoying a full relationship, and certainly no closer to finding the perfect woman for me. So I began examining myself.

I wasn't underwear model material, but I cleaned up pretty well. I couldn't tell you how a rocket engine worked but I could certainly comprehend most of what I read and I could manage a bank account. I didn't live in the lap of luxury, but my bills were paid and I could afford some small luxuries from the sporting goods store. I didn't like public speaking, but I didn't have an asthma attack every time I spoke to a female. I had bad days, like everyone, but I didn't spend all my time miserable. I wasn't confrontational, but I would say what I thought. And *I thought* I was pretty well balanced. I really couldn't understand how I could be to blame, but there comes a point when you have to realize that you are at fault. So, what was wrong with me?

No doubt, if you are reading this book, you are probably wondering the same thing. The answer is simple. So simple, in fact, that getting to this point is the easy part. The answer is that there is nothing wrong with you *except* how you think. This book is designed to help you understand exactly what you want out of a relationship, the route you need to take to get you there, and the changes that you need to make in order to see it through. It is also filled with tips to help you fine tune social skills that will help you take home the catch of the day, every time.

*Trophy Fishing 101* can help you with reeling in Ms. Right, by giving you step by step instructions on choosing the right place to find your perfect woman, how to make her fall for you, and how to make

her yours and yours, alone. By following the instructions and examples in this book, you too can find everything you're looking for in a woman.

In order to make things simpler, I decided to combine my love of the outdoors with this amazing approach to show what people throughout the ages have always known. Searching for the right woman is a lot like fishing. Sometimes the catch is elusive, sometimes it's the fight that makes it worth it, and sometimes it's a delicious meal to be savored. Sometimes, you catch them and keep them; sometimes you catch them and release them. But one thing is certain; no fish is uncatchable. Think about that.

Did I just say that you can have any fish in the sea? Yes, yes I did. When I tell you that you can have any woman you want, I mean it. But, are there exceptions to this? Of course, you can't make a woman love you if she is in love with someone else. At this point she is unavailable and only bad sports attempt advances at a woman who is unavailable. You also can't attract a woman if she is into other women. At this point, she is not only unavailable, she's competition. One last exception here would be a woman who is suffering painful or emotional stresses that aren't known to us. For example, some women have a history of violent relationships that may hinder a new relationship from developing.

Others may have suffered some type of traumatic situation like a mugging, a rape, or some other act that causes mental anguish and these women often need space, not a pickup line. That doesn't mean that you can't have a relationship with these women, it just means that you will have to work so hard just to achieve the smallest of goals with the relationship. Expect a lot of effort and a slow and steady pace to make this type of woman yours. So, keep these things in mind when you are using this guide.

Just because you can have almost any "fish in the sea" doesn't mean you want them all; however, you may decide to pursue several relationships at the same time and this can also be accomplished by reading this book. I have had multiple relationships, all working and all healthy at the same time. I have also been in a state of mind to have one relationship that I focused on entirely. What I have learned from this is that I control my relationships, they don't control me. Sounds like a jerk would say that, right? And it does, until you realize that by acknowledging this fact, I can take this a step further and know that if the relationship fails, it is my fault, because I was in control. You have to accept responsibility for every failed relationship.

Once you can do this you are well on your way to finding Ms. Right. By utilizing everything I am going to teach you in this book, you too can be comfortable in most any social environment and confident that you can attract any available woman you want. And while this book is full of tips to help you attract any woman, it is invaluable for helping you manage the relationship with the woman you want in order to ensure a successful and happy connection that lasts as long as you want it to. Remember, you are in control.

And you should not get discouraged if you have trouble implementing everything you are going to learn in this book. Even when the relationship fails, there is valuable information that can be taken away from the experience which can help you in the next one. It is a learning process that took me a really long time to figure out. But, thankfully, you won't have to make every mistake that I made. By

reading *Trophy Fishing 101* you can avoid most of the obstacles that I had to overcome, saving you valuable time and effort. You can thank me later.

No matter what you are looking for in a woman, this book can help you. From the first time you cast a line to the day you retire your fishing gear, this book will help you with all of that and everything in between. For example, let's say you are seeing someone intimately and you realize that this is not Ms. Right, but you enjoy this person's company and would really like to retain their friendship. I'll show you how to do this, easily.

Or maybe, you realize that you don't want this person in your life anymore, period. This can be accomplished without losing your dignity or suicide (after all the purpose is to find the right one), so you can keep your head in the real game and not get snagged on a failing relationship. I can teach you when to snap the line, clean, and when to give it a little play and work it loose. It is all about finesse and understanding exactly what you want.

Learn how you can increase the number of looks you get just by walking and carrying yourself a certain way. This is true and I can show you what you are doing wrong when you present yourself to the world. In this guide, you will learn how to correct bad habits which can make you blend in with your surroundings. You *have* to get noticed. Just like a lure, you have to stand out and you have to attract as many fish as possible in order to catch the right one.

Learn how to read the body language of the woman you are interested in. Know what she is after in order to be the best bait you can be. Know when she is taking the bait and learn when she is just not biting. Even fish that aren't hungry can be tempted to strike; it just takes more effort on your part.

Once you've got her on the line, I can tell you exactly how to land your catch. By knowing when to reel in the line and knowing when to let her run, you'll never have trouble getting her to shore. Keeping her interested after the initial spark is crucial to taking home the day's catch, and with *Trophy Fishing 101* you will have the tools you need to catch whatever fish in the sea you want.

Learn how to build deeply rooted emotional ties with Ms. Right. It doesn't matter how you lured her in and made her yours if she doesn't feel as strongly about you as you do about her. I can show you how to make her really return the love you have for her, it is all right inside this book. You learn everything you need to build strong deep unity with the woman you are seeing. In fact, all the information you will ever need for reeling in Ms. Right can be found in this guide, but, I'd like to mention one last thing before you begin this course.

Right now, you have probably decided to read this book because you have this one particular woman who you want to attract, and that is fine. This system can definitely help you with that, but it is important to remember that throughout this process you will be changing and it is only fair to note that your idea of the perfect woman will probably change, as well. In fact, you may be pleasantly surprised by the end results. So, with that in mind, take the first step and let's get started on your new life as a trophy magnet.
